MusicFirst Classroom: Rostering and SSO

This guide helps you understand the different rostering and login options available for your MusicFirst Classroom, so you can choose the one that best fits your needs.

Feature	Manual Rostering	Google SSO	Classlink
User Account Creation	Teacher or School Admin manually create accounts or uploads via CSV	Automatically created via Google login or uploaded before via CSV	Automatically created via Classlink sync
Class Creation/Enrollment	Teachers manually create Classes or can be included on the CSV upload	Teachers manually creates Classes or can be included on the CSV upload	Automatically created via Classlink sync
Student Login Method	Username/Password	Google login button	Classlink login portal
SSO (Single Sign-On)	❌	✅	✅
Authentication Protocol	N/A	OAuth2	OAuth2
Roster Syncing/Updates	Manual	Manual	Fully automated
Initial Setup Time	Low	Low-Medium (*your site URL must be registered manually by the MusicFirst team*)	Medium-High (*requires district setup with Classlink*)
Ongoing Maintenance	Medium (*manually add/remove students and manage Classes*)	Medium (*manually remove students and manage Classes*)	Low
School IT Involvement	None required	None required	High (*IT admin setup required*)
Best For	Individual teachers, small classes, no IT support	Schools using Google and want simple sign-in	Districts with Classlink and centralized SIS setup
COPPA/FERPA/EEA Compliance	✅	✅	✅

Which Option Should I Choose?

- Choose **Manual Rostering** if you're managing your own classes and don't have IT support
- Choose **Google SSO** if your school has Google accounts and you want a fast and efficient sign-in option
- Choose **Classlink** if your district already uses it and you want everything to be fully automated
